

Harrisburg

July 20th

My dear Mr. Fox,

When your
very kind letter was received
I had hoped to have so far
recovered my accustomed
health when the expiration
granted me had expired
as to be able to return to
work, I find now however
that the improvement has
been so slow that I feel that
I cannot with safety return
at that time, (the extremely

warm weather hindering
the return of strength.) I
desire to do my whole duty
in the premises and, of course
if the order is imperative
will be on hand at the time
named, but at the same
time I feel that in justice
to myself I ought to ask
for a week longer — to the
1st Aug.

I make this request reluct-
antly — not because I want
to shirk any work or duty,
but because I feel it to be
a necessity to myself and
am sure that the public

service will not suffer
if my request be granted.

Very respectfully
Yours &c
Theresa C. Peale

[Abstract:] Illness cause of absence.

Harrisburg
July 20, 1889

My dear Mr. Fox,

When your very kind letter was received I had hoped to have so far recovered my accustomed health when the extension granted me had expired as to be able to return to work, I find now however that the improvement has been so slow that I feel that I cannot with safety return at that time, (the extremely warm weather hindering the return of strength) I desire to do my whole duty in the premises and, of course if the order is imperative will be on hand at the time named, but at the same time I feel that in justice to myself I ought to ask for a week longer – to the 1st Aug.

I make this request reluctantly – not because I want to shirk any work or duty, but because I feel it to be a necessity to myself and am sure that the public service will not suffer if my request be granted.

Very respectfully,
Yours &c.
Theresa E. Peale
